KHAIRUL AZIZI BIN ANUWAR

Klang, Selangor, Malaysia | +60 16-679 8900 | khairazizi@gmail.com | https://www.kazzorigin.my

PROFESSIONAL SUMMARY

Second-year Computer Science student at Universiti Kebangsaan Malaysia (UKM) with a Diploma in Information Technology (CGPA 3.92) and hands-on full-stack development experience in React, Next.js, TypeScript, React Native, Supabase, Python, and Java. Built and deployed three projects, including the award-winning BreedLink mobile app and two live websites (Riderhood and Dangau Sala Resort), with additional IT support and website troubleshooting experience from an IT internship. Seeking internship or entry-level software developer, web developer, or IT support roles.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, TypeScript, JavaScript (basic), Visual Basic
- **Web Development:** HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Responsive Web Design
- **Mobile Development:** React Native (Android and iOS)
- **Backend and Databases:** Supabase (database, authentication, API integration), Mapbox (GPS and map integration), Vercel (deployment)
- **Concepts:** Object-Oriented Programming (OOP), System Analysis and Design, Requirements Gathering, Technical Documentation, Project Planning, UI/UX Design
- **IT Support:** Troubleshooting (software, access, configuration, network issues), PC Setup, Server Access
- **Design and Multimedia:** Adobe Illustrator, Adobe Animate, Adobe Lightroom, Canva
- **Foundational Knowledge:** Basic AI and Data Analytics concepts

EDUCATION

Computer Science (Second-Year Student) | Universiti Kebangsaan Malaysia (UKM) | Expected graduation: August 2027 (admitted via diploma credit transfer)

Diploma in Information Technology (Technology Digital) | Politeknik Ungku Omar | 2023 – 2026

- Dean's List, Semesters 1–5
- Dean's Award for achieving a 4.00 GPA in Semesters 4 and 5
- CGPA: 3.92

Sijil Pelajaran Malaysia (SPM) | SMK Raja Mahadi | 2022

PROJECTS

BreedLink: Pet Breeding Matchmaking System | Team Developer (team of 3) | Politeknik Ungku Omar | Jul 2025 – Sep 2025 | breedlinks.vercel.app

- Developed a cross-platform mobile application using React Native to connect cat owners with suitable breeding partners.
- Led backend development and system integration, using Supabase for database management, user authentication, and API integration.
- Ensured efficient data handling and consistent performance across Android and iOS platforms.
- Won First Place (Best Project Award, Software and Application Development category) at the Innovation and Creativity Exhibition (ICE JTMK) 2025.

Riderhood: Motorcycle Care Platform | Full-Stack Developer and UI/UX Designer | riderhood.my

- Designed and developed a connected motorcycle care platform that helps riders find certified workshops, book services, and track maintenance history.
- Implemented a GPS workshop locator covering the Kulim and Penang border area using Mapbox, a 5-step rapid service booking flow, and a spare parts directory.
- Built the front end and data layer with React / Next.js, TypeScript, Tailwind CSS, and Supabase.

Dangau Sala Resort: Agrotourism Website | Full-Stack Developer and UI/UX Designer | dangausala.vercel.app

- Built a responsive Next.js 14 website to unify room showcases, rates, and direct reservations for an agrotourism retreat.
- Implemented interactive room galleries, 1-click WhatsApp reservation, and Mount Jerai GPS routing.
- Developed with React, TypeScript, Tailwind CSS, and Lucide Icons; deployed on Vercel.

WORK EXPERIENCE

Wallmaster (Internship) | Jan 2026 – May 2026

- Troubleshot website errors and supported performance stability across company web platforms.
- Diagnosed and resolved software, access, and configuration issues on user systems, reducing operational disruptions.
- Prepared multimedia content, including basic video editing, for internal and promotional use.

Supervisor, 99 Speedmart | Jun 2026 – Sep 2026

- Supervised daily store operations, including staff coordination, task assignment, and opening and closing procedures.
- Managed inventory by verifying deliveries, conducting stock counts, and resolving discrepancies.
- Handled cash reconciliation and monitored staff performance to support sales and operational targets.

Part-Time Crew, Richeese Factory | Jun 2025 – Aug 2025

- Handled customer inquiries and maintained order accuracy in a fast-paced environment.
- Collaborated with team members to manage peak hours.

AWARDS AND ACHIEVEMENTS

- First Place, Best Project Award: Innovation and Creativity Exhibition (ICE JTMK) 2025 (BreedLink)
- Second Place, Outstanding Social Impact Award: Applied Project Excellence Exhibition (APEX) 2025
- Second Place, Cybertech Arena: Web Design Challenge 2025 (national, organized by Politeknik Sultan Idris Shah)
- Third Place (State Level, Selangor): Digital Storytelling Animation Competition, 2022

ADDITIONAL INFORMATION

- Languages: Bahasa Malaysia, English (MUET Band 3.5)
